LAYMAN'S DAY OBSERVED
Pension Fund for Retired Ministers Proposed
ADA — (Special) — "They say the 18th amendment and the Volstead act make lawbreakers. Oh, no. They simply find out a lot of fellows who have been law-breakers in their hearts all the time."
Such was the emphatic declaration of United States Senator Frank B. Willis of Ohio before the West Ohio Methodist Conference here on Friday night.
"I shall speak of the observance of law, rather than of the enforcement of law. You say a man breaks a law. You can't break a law. A man finds out before he gets thru that he is the one that's broken. It's true in the 'moral world.' It's true in statutory law.
"If every man and woman had the proper sense of responsibility and observed the law, many of the things in government we now hold necessary would be unnecessary.
FAIL TO VOTE
"Citizens do not perform their civic duty in voting. In Ohio two years ago the Senatorial candidate was elected by 25 percent of the people; in Tennessee by 13 percent; in Mississippi by only 7 percent.

Coolidge Warns of Attack on U. S. Supreme Court
CALLED BLOW AT FREEDOM
Executive Defends Tribunal in Baltimore Speech
BALTIMORE, Md. — (By Associated Press) — President Coolidge called upon the American people in a LaFayette Day address here today to take a stand against "a deliberate and determined effort" which he said "is being made to break down the guarantees of our fundamental law" thru a movement "to limit the jurisdiction of our domestic courts."
Speaking at the unveiling of a statue of LaFayette, the president characterized the great Frenchman as "a true son of world freedom" and asserted that "this occasion is dedicated to freedom."
"The question is," he declared, "whether America will allow itself to be degraded into a communistic and socialistic state, or whether it will remain America. Those who want to continue to enjoy the high estate of American citizenship will resist all attempts to encroach upon their liberties by encroaching upon the power of the courts."
DEFENSE OF COURT

Half Will Go Into New Roads and Repairs
COUNTY FUND ELIMINATED
Increases Sought in Several Smaller Departments
Nearly three quarters of a million dollars will be required to meet the expenses of county government in 1925, according to an estimate prepared by county commissioners and Auditor C. R. Phillips Saturday.
The budget made up at a conference between the officials totals \$721,826. The budget prepared by the city of Lima is \$909,573, making a total of \$1,631,599, sought by the city and county.
Annual collections in the county have never exceeded \$2,250,000. Amount sought by the county commissioners, they declared, compares very favorably with that certified to the county budget commission one year ago.
Commissioners declared that they have pared their wants to the bone, and that total amount sought is in no wise unreasonable or extravagant.
ROAD FUND
Road funds sought by the commissioners total more than half the entire budget. Nearly one-half million of dollars will be needed to keep the roads of the county in adequate repair and construct new sections of paving between centers of population. The total road money sought aggregates, \$476,126. Of this amount \$270,456, comes under the two mill exemption voted in 1919 and which expires this year.
The general county fund has been eliminated from the budget. Commissioners. It is understood that the item clear out of the proposed expenses as almost nothing

D. R. ROBERTSON RE-ELECTED

Officers Named by Ohio Building Trades Council

SPRINGFIELD, Ohio—(By Associated Press)—Concluding its annual conference, the Ohio Building Trades council last night re-elected most of its old officers and acted upon a variety of resolutions of interest to organized labor. Duve R. Robertson, Cincinnati, was re-elected president, while Charles J. Case of Cincinnati, was re-elected secretary.

Resolution protesting against the organization of dual carpenters' union in Cleveland, Cincinnati and Dayton was adopted after more than an hour of heated discussion. At the conclusion of the conference it was announced that the delegates had reached a harmonious decision regarding their attitude toward the jurisdictional award which granted to sheet metal workers the right to install sheet metal work in the city of Cleveland. The International Brotherhood of Carpenters and Joiners had steadfastly refused to abide by the decision and as a result new carpenters' unions have been formed in three cities. Secretary Case said the matter as it affects Ohio had been settled amicably.

Other officers named included: First vice president, William Schmitt, Cleveland; second vice president, Thomas West, Cleveland; third vice president, Harvey Hill, Lorain; fourth vice president, Arthur Barr, Columbus; fifth vice president, Edward Caras, Cleveland; sixth vice president, John Steele, Cleveland; seventh vice president, Joseph Johnson, Cincinnati; eighth vice president, James Boyle, Cleveland; ninth vice president, Harry Jones, Dayton.

More than 100 delegates and international officers attended the sessions of the conference.

Let The Lima News WANT-AD BOOKLET Make Your Want Ads Pay

Lima News Want Ads are wonderfully productive little workers, especially when they are used rightly. Making a sale depends on four things: The market, the character of your offer, the price, and the way in which you word your Want Ad. And the wording of a Want Ad is very often the most important! Even when your offer is fair and the market good, your

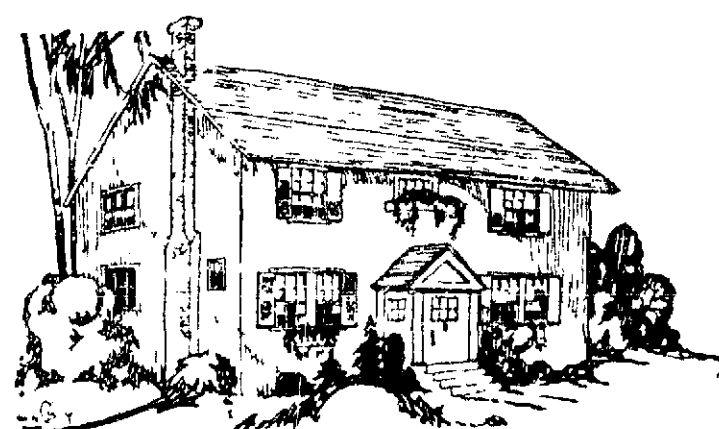

Want Ad may fail to produce if it is not worded well. To insure the right kind of response, tell your story adequately. The Lima News has printed a booklet -- "Wording a Want Ad to Make It Pay" -- especially for the use of its Want Advertisers. This booklet will be mailed free to any one requesting it, in the hope that it will help to make Want Ads more effective.

READ WHAT THE INTERNATIONAL CORRESPONDENCE SCHOOLS SAY OF "WORDING A WANT AD"

Mr. G. L. Sumner, Advertising Manager of the International Correspondence Schools, in an address before various advertising clubs in the Middle West, has recommended the use of a booklet, like The News -- "Wording a Want Ad to Make It Pay."

Mr. Sumner remarks that he has been trying to drive home the idea that advertising space is only so much opportunity to interest people in what you want to buy or what you have to sell.

Interest lies in detail. The Lima News has ferreted out all possible details in the various Want Ad classifications. These lists of essential details are invaluable in the writing of a Want Ad. Send for this free Booklet and use it in writing your next Want Ad.

Crime Cost

Word from Chicago is that the Leob-Leopold hearing will cost that community not less than \$600,000. That sum is less than a regular trial would have cost, but it is illuminative in that it informs the public, not only there but everywhere, that crime is enormously expensive in dollars and cents, to say nothing of its hideousness.

Chicago now has attained a record of a murder a day. Not all of these crimes will entail such expenses as are attached to the Leob-Leopold hearing, but no one of them will fail to take its money toll from the pockets of the taxpayers.

And what is true in Chicago is also true in every other community where crimes, great or small, are committed.

Every time an offense against the law is perpetrated, whether it be of minor or major degree, it reaches into the pocket of every citizen and takes therefrom, in cold cash, either so many cents or so many dollars, as the case may demand. Speak your hide with that fact.

We deprecate it but do not measure crime for what it is. We look upon it as merely an infringement or assault of one or more persons upon others, individually or collectively and in one way or another—as a shock to the human sensibilities. It is all of that and far more.

It is a money tax of burdensome size. It is something that we permit to be forced on us and for which we must and do pay in cold, hard cash. It is something that impoverishes us not only morally, physically and mentally, but financially.

The remedy is in the hands of civilization everywhere. That crime's repulsive face leers at us from every angle is our fault and ours alone. And we pay a heavy price for that leer.

The "Kid's" Love

"Kid McCoy" loves and always has loved his mother, we are told. She says he is and always has been "a good boy" to her. At 2 o'clock of the morning, after the crime of which he is accused had taken place, he went to his mother's home to tell her that he loved her. Now he is in jail and face to face with a charge that may cause his death at the hands of the law.

"Kid McCoy" no doubt loved his mother as a little child loves. She was good to turn to for solace and sympathy and affection when weariness came and hurts and troubles. But "Kid McCoy" does not and never has loved his mother as the Divine admonition contemplates. Never has his life been guided or influenced by that love. "Honor thy father and thy mother" was not laid down as a rule of conduct for babes. It does not mean simply a caress, a tender word, a bit of devotion, a gesture of loyalty. Love, big and abiding and controlling, is its perfect definition. It means that man shall so live and so conduct himself as to reflect honor upon himself not alone but upon her who went down into the valley of the shadow to bring him back, a helpless babe.

Men who give such a love as this expression in their daily walks and living do not know free and easy morals—do not find themselves confronting the gallows, as "Kid McCoy" does today and as other men have done before him. Filial affection cannot consort with crime.

Spoiled Food

More than 12,000 seizures and prosecutions, for adulterating and misbranding foods and medicines, have been made under the national pure food and drugs law. Offenses range all the way from putting an olive oil label on cottonseed oil, to marketing impure medicinal drugs.

This is a start in the right direction, but only a start. Foods should be safeguarded

all the way until they reach consumers' mouths in a pure state. Cities, for instance, should have ordinances compelling sterilization of spoons and forks used at soda fountains and eating places.

Sticking Qualities

A 59-year-old man raced a jockey-ridden horse in London, England, 10 hours a day for six days. The man C. W. Hart, won. He ran 345 miles, the horse 337 miles.

The horse could easily out-distance the man—early in the race. But Hart had more endurance.

Power wins battles. Endurance wins the war.

It's like the prizefighter who "didn't know when he was beaten." Not knowing, he refused to give up—fought doggedly until his superior lasting powers overcame his opponent's superior strength and skill.

In this race between a man and a horse, the man winning, you have a clear-cut illustration of why brilliant men are often left far behind by men of inferior ability, in the race for success.

Natural ability and influential friends often count less than endurance.

In this case, endurance involves several things:

ONE—Superior physical power adds an average brain to "beat out" the superior brain in a weak body. A bright light burns out quickly if it has a weak battery.

TWO—Reliability and thoroughness are frequently more desirable than intellectual genius. A plodder who can be depended on will outdistance a man with a better brain handicapped by a tendency to slipshod and unreliable.

THREE—Determination, ambition and willingness to work hard for success—these make a man forge ahead of a rival who may have more ability but is easily discouraged or lazy.

Newspapers

Fewer but better newspapers are predicted by the head of Columbia University School of Journalism.

What is meant by a "better" paper? Fiftieth and more years ago, journalism was better than today—in fancy writing, looks of the printed product and other forms of technique. But modern papers conspicuously excel the old-timers in telling both sides, especially in politics. The old-timers were usually one-sided, unfair and unscrupulously partisan.

Quarantined

A victim of a relatively mild disease, such as measles, is quarantined. Victims of tuberculosis, virulent social diseases and so on, are allowed to roam at large, endangering the public.

These dread diseases will sweep the population until victims are isolated. The cost of supporting them would be terrific. But it would pay in the long run, and part could be charged to the safeguarded future generations by bond issues. Ontario, Canada, for instance, is active in compelling the segregation of tubercular unfortunates.

World Travelers

On a tour of the world, started in 1919, Mr. and Mrs. Frank M. Richards of Los Angeles have already covered over 216,000 miles. Five more years of travel ahead.

So far they've used the auto for nearly 200,000 miles, which is a revelation in Good Roads. A century from now, trips of this length by airplane will be common. Nearly all of us miss a lot by being able to see only a small part of this world before we pass on to the next. Civilization at present has us in what amounts to penitentiary cells. Airplane will unlock the doors, 100 times more so than the auto.

FIGHTING GIANTS WIN TWO FROM HAPLESS PHILLIES

BROOKLYN CHALKS UP SMCGRAW'S CLAN WIN "Just My Luck That Something Would Happen," Says Harry Wills

NEW YORK — (By Associated Press) — Noted for fighting qualities and always playing at top speed when they feel their opponents' hot breath on their necks, New York Giants maintain their league lead in the cornered battle for first honors in the National League by a double victory over the hapless Phillies. Brooklyn with the pennant in sight, stretched its wings to 14 straight games by defeating Boston, but the Giants lead increase from three to six points. Howard Baldwin, recently recalled from Toledo, led the Giants in their victory which was close, 6

WATCHING THE SCORE BOARD
YESTERDAY'S HERO—Rube Ehrhardt, young Brooklyn pitcher, let the Braves down with five hits and shut them out 4 to 0. It was the fourteenth straight victory for the Robins over the twenty-eighth out of their last 32 games. The Giants increased their lead over the Robins to six points when they took a double header from the Phils at 6-5 and 15 to 3. Kofy and Jackson hit homers in the second game with the bases filled. While the Yankees and Senators were idle, the Tigers climbed up slightly by winning two games from the Indians at 7 to 3 and 20 to 1. Pete Donohue outpitched Alexander in a duel and the Red Sox beat the Cubs 3 to 1 in a game that only lasted one hour and ten minutes. Cynosurus let the Browns down with three hits and the White Sox won 4 to 1.

SIXTY-SEVEN Golfers In Finals
CHICAGO—(Associated Press) —Sixty-seven fine golfers reported to Charles O. Piel, president of the Western Golf Association at the Calumet club this morning and started on the final 36 holes of the contest to determine who should take the western open championship held by Jack Hutchison of Chicago. It appeared that the crown would rest on a new brow, for Hutchison in the two elimination rounds which count in the scoring for the title, took 156 strokes. Leading the contestants at the start of today's play was William Melhorn of St. Louis, who by virtue of a seventy-two and Friday's play to be eligible, and 11 tied at that figure. The first pair today got away at 8:30 a. m. and others followed at five minute intervals until 11:15. Bill Melhorn of St. Louis was the card of the qualifying round. By playing a superb game yesterday, two under par for the course, the card of 148 for the two days. Less than an hour before Chick Evans checked in with a total card of 147, by a virtue of a well played 73 yesterday. Third honors went to St. Louis again, as Eddie Held reported a 148.

CLUBS DOWN SENATORS
Cleveland Friday, is the largest score that has been made in the American League this season. The nearest approach to it was Aug. 30, when Philadelphia defeated Boston at Boston 18-7. GET NEW OUTFIELDER "Buck" Fraser, hard hitting outfielder of the Quebec baseball club, has been sold to the New York Giants, it was reported. He was ordered to report to the Giants next Monday. RECEIVE CONGRATULATIONS President Coolidge personally congratulated the Washington baseball club on its rise to the top of the American league, and wished it good luck on its road trip starting Sunday night. The team recalled at the White House on request of the president. FRENCH STRATEGY FAILS Strategy of the French tennis team in the zone finals for the Davis cup did not work out well. The French believed that by placing Jacques Brugnon in the doubles with Rene La Coste, there would be an even chance to beat Gerald Patterson and Pat O'Hara Wood in the only doubles match won in straight sets, 6-4, 6-4 and 6-2, which put their team ahead two matches to one.

D. R. ROBERTSON RE-ELECTED

Officers Named by Ohio Building Trades Council

SPRINGFIELD, Ohio—(By Associated Press)—Concluding its annual conference, the Ohio Building Trades Council last night re-elected most of its old officers and acted upon a variety of resolutions of interest to organized labor. Dave R. Robertson, Cleveland, was re-elected president, while Charles J. Case of Cincinnati, was renamed secretary-treasurer.

Resolution protesting against the organization of dual carpenters' union in Cleveland, Cincinnati and Dayton was adopted after more than an hour of heated discussion. At the conclusion of the conference it was announced that the delegates had reached a harmonious decision regarding their attitude toward the jurisdictional award which granted to sheet metal workers the right to install metal. The International Brotherhood of Carpenters and Joiners had steadfastly refused to abide by the decision and as a result new carpenters' unions have been formed in three cities. Secretary Case said the matter as it affects Ohio had been settled amicably.

Other officers named included: First vice president, William Schmitt, Cleveland; second vice president, Thomas West, Cleveland; third vice president, Harvey Hill, Lorain; fourth vice president, Arthur Barr, Columbus; fifth vice president, Edward Cavan, Cleveland; sixth vice president, John Steele, Cleveland; seventh vice president, Joseph Johnson, Cincinnati; eighth vice president, James Boyle, Cleveland; ninth vice president, Harry Jones, Dayton.

More than 100 delegates and international officers attended the sessions of the conference.
